## SUMMARY

---

Dedicated and skilled software engineer with three years of hands-on experience in the field. Proficient in designing, developing, and implementing software solutions to meet business needs and enhance operational efficiency. Possesses a strong foundation in various programming languages, including but not limited to PHP and JavaScript, along with expertise in database management systems and web technologies. Demonstrates excellent problem-solving abilities and a keen eye for detail, coupled with effective communication skills to collaborate within interdisciplinary teams. Committed to staying updated with the latest technological advancements and continuously improving expertise to deliver high-quality software products.

## SKILLS

---

### Programming languages:

1. PHP
2. JavaScript
3. SQL
4. CSS
5. HTML
6. Typescript

### Frameworks and libraries:

1. CSS Preprocessors: SASS.
2. jQuery library.
3. Laravel Framework.
4. React.js Framework.
5. Next.js Framework.
6. Drupal CMS.
7. Node.js.

## Software and tools:

1. Package Manger: npm, composer, and pnpm.
2. Version control using GIT and GitHub, Bitbucket, GitLab.
3. Code editor and ide: VSCode, PHPStorm, WebStorm and cursor.
4. High knowledge with using Adobe Photoshop, Adobe XD, and Adobe illustrator, Figma.
5. High knowledge with Google Applications, Microsoft Applications.
6. Postman for API.
7. Jenkins for deploying (CI/CD) / Github actions.
8. Webpack, Vite, Turbo (with nextjs) (build tooling).
9. Jira (Agile methodology).

## Hardware:

1. Strong skills in maintenance and troubleshooting.
2. Strong knowledge with: Networking.

## Operating System:

1. Microsoft Windows.
2. Linux (ubuntu).

# PROFESSIONAL EXPERIENCE

---

### Sr. Frontend engineer

[Almosafer](#) | Amman | Dec/2024 – Present

1. Worked on building dashboards contains analysis for almosafer support system.
2. Working on operation issues to ensure smooth operation for almosafer agents.
3. Analyzed proposed technical solutions.

### Software engineer

[Sprintive](#) | Amman | May/2022 – Nov/2024

1. Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
2. Coordinated with other engineers to evaluate and improve software interfaces.  
Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
3. Analyzed proposed technical solutions based on customer requirements.

### Backend Developer

Next Stage Software & Marketing Solution | Amman | Feb/2022– Apr/2022

1. Created enhancements to resolve client problems and meet operational standards.
2. Integrated front-end elements into applications. Defined and maintained databases to deliver responsiveness to data client requests.

## Backend Developer

Merwas | Amman | Sep/2021 – Nov/2021

1. Created enhancements to resolve client problems and meet operational standards.
2. Integrated front-end elements into applications. Defined and maintained databases to deliver responsiveness to data client requests.

## EDUCATION

---

1. Bachelor's degree in network engineering | BAU, Amman Feb/2021 – Jan/2024
2. Diploma in computer and network systems | BAU, Amman 2018 – Dec/2020

## COURSES

---

1. PHP and MySQL: Course 60hr in step-by-step training center.
2. ICDL – Base: Computer Basic, Network Basic, Word Basic and excel Basic in Edraak.
3. PHP, MySQL, Python in Solo learn website.
4. PHP, MySQL, Laravel, React.js Courses in Udemy.
5. CCNA course two hundred hours from PSUT University.
6. Linux Fundamentals in coursera.
7. Frontend Developer (React.js) from HackerRank
8. SQL (Intermediate) from HackerRank

## PROJECTS

---

### 1. Redwan Book Library:

- I developed this project with Merwas Company, I was responsible of developing restful API to use it with web app and create an Admin Dashboard.
- **Portal Link:** [redwanpublisher.com](http://redwanpublisher.com).

### 2. HRSD public portal:

- We work on this portal as third party for xtend company, we work on develop the new user interface and new backend for portal, my responsibility was to create a 3-tires application starter-kit to use it on this portal and other portals, we use next.js to create a server-side components, and to get the benefits of their app routing, the portal is a multilanguage, we have use first components approach to make it easy for the portal admin to show the components he wants in the website using layout builder.
- **Portal Link:** [hrsd.gov.sa](http://hrsd.gov.sa).

### 3. SHIFA-CRM:

- CRM system designed to facilitate the management of patient care within healthcare centers. It provides a comprehensive platform for healthcare professionals, administrators, and center staff to efficiently handle patient appointments, medical records, prescriptions, and user management, to improve accessibility to patient information and update it rapidly and with high accuracy from anywhere. [For more details.](#)

#### 4. Saudi Center for Organ Transplantation:

- As the lead on this project, I spearheaded the revamp of the Saudi Center for Organ Transplantation portal, integrating the latest product enhancements and leveraging Next.js for feature optimization. I closely collaborated with the Service Delivery Team to ensure seamless delivery and implementation of the portal, ensuring it met high standards of functionality and user experience. Additionally, I established a robust process for keeping the portal consistently updated with new product changes and improvements.

#### 5. King Abdul Aziz Arabian Horse Center:

- As a key member of the development team, I contributed to building the front-end interface for the King Abdul Aziz Arabian Horse Center project. I also provided support to the backend team, collaborating to ensure the seamless delivery and implementation of the project.
- **Portal Link:** [kaahc.gov.sa](https://kaahc.gov.sa).

#### 6. Loqui (Social media website):

- I developed a personal website aimed at fostering connections, allowing users to interact either anonymously or directly, providing flexibility and a unique way to communicate.
- **Portal Link:** [loqui.yanalshoubaki.com](https://loqui.yanalshoubaki.com).

#### 7. Diriyah Art Futures:

- As a key member of the development team, I contributed to building the front-end interface for the Diriyah Art Futures project. I also provided support to the backend team, collaborating to ensure the seamless delivery and implementation of the project.
